

PeopleSoft Upgrade Planning Workshop

A complimentary application roadmap and upgrade planning workshop for PeopleSoft Enterprise Applications.

PeopleSoft Enterprise Customers are Facing the Same Tough Questions:

Do we upgrade to PeopleSoft 9.0?

What are the business benefits of upgrading?

What are the support implications if I don't upgrade?

With Oracle's Application Unlimited program, ongoing PeopleSoft releases and the advent of Oracle Fusion Applications, many organizations are unclear of what the future holds for their existing investments. At the completion of this interactive workshop, we will provide you with:

- Options with estimated costs and benefits of various upgrade/no upgrade strategies
- An Oracle Application Roadmap customized to your application portfolio
- Application Management options covering benefits and relative costs

Your Complimentary Onsite Workshop Includes:

- Hands-on, collaborative workshop with your team
- Emerging Solutions Presentation covering:
 - The Top Five Reasons why organizations are upgrading their PeopleSoft Applications (and why they aren't)
 - Oracle's updated application roadmap
 - Upgrade planning and best practices
 - Application management strategies
 - Upgrade Planning worksheet

Who Should Attend:

This workshop is geared toward senior level finance, HR and IT executives who are currently running PeopleSoft applications version 8.8 or earlier.

Schedule Your Complimentary Workshop Today:

Chicago Office: Jennifer Sammons | 312-669-9600 x416 | jsammons@emergenow.com
